**BIOLOGY TECHNICAL NOTE NO. NM 57**

**SUBJECT: ECS – A GUIDE FOR PLANNING RIPARIAN TREATMENTS IN NEW MEXICO**

**Purpose:** To distribute information to the field.

**Background:** Biology Technical Note 57 provides basic information for riparian restoration. The strength of this technical note are the numerous links to additional, more detailed information for various restoration topics. Although this technical note can be downloaded it is best used on line where these links to additional information are live.

**Expiration Date:** September 30, 2008

The attached publication is provided in order to assist NRCS employees, and consultants in planning riparian treatments.

You may download additional copies from the following web site:
